

Serving the Utilities Industry

Movac provides hydrovac and waste transfer services for utility companies. Our services are highly effective for projects requiring sensitive, non-destructive excavation of buried lines, cables or equipment, or where access is difficult.

Our reputation for providing professional, reliable and cost-effective service is earned from collaborating closely and diligently with our clients. We understand the importance of ensuring safety, minimizing disruption on the jobsite and meeting environmental standards.

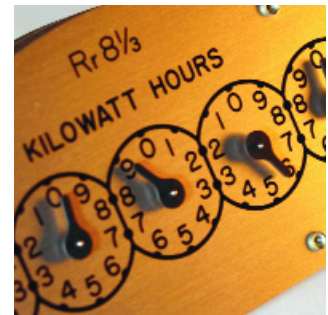

Services to utility companies include:

- back hoe excavation and loading
- catch basins and storm drain cleaning
- culvert cleanout
- de-watering
- dust control
- emergency response
- facility decommissioning
- hydrovac excavation
- ice road building
- industrial water hauling
- line locating
- piling and test holes
- pipeline break cleanup
- plant turnarounds
- post hole digging
- skid steer loading
- soil solidification and stabilization
- spill cleanup
- sump and sewer line cleanup
- trenching

Our high-performance equipment is promptly dispatched to your jobsite, ready to serve. They include:

- Vacuum Trucks
- Water Trucks
- Hydrovac Trucks
- Trailer Hydrovacs
- Combination Units
- Ancillary equipment
- Back Hoes
- Gravel Trucks
- Onsite Trailer Units
- Skid Steer Loaders

If you are in the early stages of planning a project or are in the midst of completing one, call us for help. We're ready when you are.
