

Serving the Oil & Gas Industry

Movac provides a wide range of waste management, cleaning and debris removal services to the petroleum industry in Western Canada.

Our reputation for being professional, reliable and cost-effective is earned from extensive experience working side-by-side with our clients on conventional drilling and oilsands projects. We understand the importance of ensuring safety, minimizing disruption on the jobsite and meeting environmental standards.

Services to the oil & gas industry include:

- 24-hour rig servicing
- coring and SAGD projects
- de-watering
- drilling and completions
- emergency response
- hydrovac excavation
- industrial water hauling
- landspraying (LWD)
- line locating
- pipeline break cleanup
- pit and sump cleanup
- plant turnarounds
- post hole digging
- production
- spill cleanup

Our high-performance equipment is promptly dispatched to your jobsite, ready to serve. They include:

- Vacuum Trucks
- Water Trucks
- Hydrovac Trucks
- Trailer Hydrovacs
- Combination Units
- Ancillary equipment
- Back Hoes
- Gravel Trucks
- Skid Steer Loaders
- Wellsite Trailer Units

If you are in the early stages of planning a project or are in the midst of completing one, call us for help. We're ready when you are.
